CCI NAMED PILOT TEST SITE FOR XEROX DOCUTECH 180

New equipment offers highlight color in a cut-sheet environment

HARTLAND, WI (September 1, 2006) - Commercial Communications, Inc. (CCI), a leader in document and information management, was named a pilot test site for Xerox's DocuTech 180 Highlight Color System. CCI is one of only three companies in the Midwest selected as a best-test site for this new equipment from Xerox.

Xerox's DocuTech 180 is the fastest cut sheet highlight color printer in the world, capable of printing 180 pages per minute. The system currently offers five color options: Blue, Red, Green, Royal Blue, and Cardinal Red. CCI was selected to test black plus Red, which allows us to render numerous halftones (tints and shades). Once the system is fully launched, additional colors will be available. The system also provides exceptional image quality (black – 600x2400 dpi and color – 600x600 dpi), which lends to excellent fine lines and crisp detail on all images.

“CCI is pleased to partner with Xerox to ensure the future success of the DocuTech 180 Highlight Color Publisher configuration,” said Steve Henck, CCI's vice president of production. “CCI's ability to partner with equipment manufacturers like Xerox strengthens our commitment to providing cutting edge equipment and capabilities to our clients before anyone else in the industry.”

About CCI

Commercial Communications, Inc. (CCI), a family-owned business founded in 1982 by Bob and Barb Hegwood, is a world leader in managed print-on-demand and electronic information delivery solutions. CCI's complete information management solutions and beyond ink philosophy help organizations leverage spend to reduce total cost of ownership. CCI seamlessly integrates print-on-demand (POD), traditional offset printing, electronic delivery, vendor-managed inventory programs and variable information solutions into organizations' current document processes. These applications allow organizations to provide the most current information to all stakeholders when, where, and how they need it. Headquartered in Hartland, Wisconsin, CCI operates an additional production facility in Arizona. CCI can be found on the web at www.comcom.com.
